

LIFE AS QUALITY PRODUCTION INTERN

I start my bright day at the office with the "hello" to my colleagues & a handshake or even a "bisous" kiss on a cheek, French style!

I go in the production line & **work closely with my supplier** to ensure the production is **meet our standards of quality, human safety, & environmental compliance.**

I manage & update **the control plan** with my supplier. **The satisfaction of our final customer is priority!** I lead a meeting with my supplier to discuss quality issues, ways to reduce the cost & to continuously improve the efficiency of production. I conduct a video conference with my Product Engineer from France to discuss some quality issues. Let us **find the best solution to protect our final customers!**

A day is almost over. I go to a **collective sport** organized by Decathlon with my teammates and other colleagues. Today, it's cycling day!

It's the end of the day & I'm proud of the things I achieved today. I get back home happily & ready for the next day to come!

ARE YOU MOTIVATED?

YOUR MISSION:
As an intern, you will participate partly in the job of a Quality Production Leader who develops supplier's expertise to produce quality products within short lead-times and low cost.

WHAT YOU WILL DO

- Source, select and manage suppliers
- Master and optimize product costs
- Evaluate and ensure the quality of products at your suppliers
- Launch and pilot continuous improvement projects with your suppliers to make progress on their performance (quality, safety, environment, toxicology) & social compliance
- Responsible for a regular control plan
- Measure and correct discrepancies
- Explain and recommend changes
- Ensure the process applying in production lines

- A last year student or fresh graduate with majors linked to engineering, quality, production or industrial management
- Excellent in English. Speaking French is an advantage
- Practice sport
- Adhere to deadlines and prioritize your actions
- Ready to make decision and responsible for your decisions
- Mobile internationally
- Understanding about production, especially in footwear/ textile/ mechanical product industries would be an advantage

WHO YOU ARE

WHAT WE WILL OFFER YOU

- You develop yourself in a multi-national working environment
- You get paid for your internship and chances of permanent hiring with your outstanding performance at the end of the internship
- You participate in training courses to develop your competence
- You join collective activities organized by the Company

Send us your CV at: chau.huynhminhngoc@decathlon.com

Available positions: Hue 02 & Da Nang 01

Apply before: 30 December 2017 -- Starting time: 01 Feb 2018

THANK YOU!
WE'RE LOOKING FORWARD TO HEARING FROM YOU!
